- Focused for the track and also road legal
- 1 owner from new with only 37km mileage
- European car with EEC taxes and duties paid

Description

We have the pleasure to offer this amazing 2018 McLaren Senna – chassis 027 - for sale.

Paying homage to Ayrton Senna, one of the greatest F1 drivers of all time, resulted in the creation of the McLaren Senna as one of the most extreme street-legal Hyper cars ever produced. The ultra-rare McLaren Senna was limited to only 500 units worldwide and is the most track-focused road car McLaren has ever built. One that is legalised for road use, but not sanitised to suit it. Nothing else matters but to deliver the most intense driving experience around a circuit.

The McLaren Senna has a single-minded purpose. In the pursuit of the most rewarding and intuitive driving experience, pioneering active aerodynamics generate unprecedented levels of downforce. It is also the lightest vehicle they have built since the iconic F1, with the most powerful road car engine to date. Delivering 800PS and 800Nm the 4.0-litre twin-turbocharged V8 is the most powerful internal combustion engine McLaren has ever built. 800kg of downforce made possible by pioneering active aerodynamics. The lightest McLaren since the iconic F1 with a dry weight of under 1200kg. A power-to-weight ratio of 668PS-per-tonne (659bhp) that ensures it will set the fastest lap times of any McLaren road car to date. 0-124mph (0-200km/h) in 6.8 seconds and a top speed of 208mph (335km/h).

It is the most direct and responsive McLaren ever built, surpassing even the McLaren P1™ GTR, to create the purest connection with the driver.

Our car, chassis 027, was built in 2018 and finished in extravagant FINA livery as a tribute to the 1997 FINA-livered McLaren F1 GTR. One of only 3 McLaren Senna in this livery, it was delivered in October 2018 to its 1st and current European owner. The car has been used very sparingly since showing only 39km on the odometer and is in as-new condition (delivery specification is below).

This is an exceptional opportunity to acquire an ultra-rare McLaren Hyper car which will sit proudly in any serious car collection while it can also be enjoyed on both the race track and the road.

Delivery specification:

McLaren Senna
Exterior color: Caliber Black
